About Us

Discover® is a great place to work and our employees are why. You'll find yourself collaborating with some of the industry's smartest and most reliable professionals; who reward dedication, value innovation and support growth. At

prised of Discover Network, with millions of merchant and cash access locations; PULSE, one of the nation's leading ATM/debit networks; and Diners Club International, a global payments network with acceptance in 190 countries and territories.

Discover's vision is to be the leading direct bank and payments partner and its mission is to help people spend smarter, manage debt better and save more so they achieve a brighter financial future.

At Discover, be part of a culture where diversity, teamwork and collaboration reign. Join a company that is just as employee-focused as it is on its customers, and which is consistently awarded for both. We're all about people and our employees are why Discover is a great place to work. Be the reason we help millions of consumers build a brighter financial future and achieve yours along the way with a rewarding career.

Technology and People First Approach:

Discover has embarked on an exciting technology journey to be one of "best in class". Our culture places its people and customers first and embraces a "we succeed together" mentality. As part of our newly formed, Technology Capabilities and Innovation organization, we are seeking multiple results driven Distinguished Engineers to continue to drive change across the technology function and will specialize in one of the following areas:

- Innovation
- Application Engineering
- Infrastructure Engineering
- Open Source Engineering
- Agile Transformation (Agile Sensei)
- User Interface (UI) / User Experience (UX)
- Data and Artificial Intelligence (AI)

These leaders will have a strong engineering mindset, a passion for innovation, and the ability to build strong partnerships at all levels across our enterprise. We are looking for individuals to leverage Agile methodology and eliminate redundancies that will allow our teams to
